

PILLAR
PATIENT ADVOCATES

Dedicated *Expertise*

Elevate your market research projects with Pillar Patient Advocates, where patient advocacy meets unparalleled recruitment expertise. As dedicated advocates, we have earned the trust of patients and providers alike, making us the go-to partner for credible health-related insights. Our recruitment strategies encompass a broad spectrum that reaches patients, caregivers, and healthcare professionals. You can count on our expertise to deliver reliable, diverse, and impactful participant insights for your research objectives.

Solid Tumor Cancers

Bladder Cancer
Brain Cancer
Breast Cancer
Cervical Cancer
Cholangiocarcinoma (Bile Tract Cancer)
Colorectal Cancer (CRC)
Endometrial Cancer
Esophageal Cancer
Gastric Cancer
Gastroesophageal Junction Cancer
Head & Neck Cancer
Kidney Cancer
Lung Cancer (NSCLC, SCLC)
Melanoma
Neuroendocrine Tumor (NET)
Ovarian Cancer
Pancreatic Cancer
Prostate Cancer
Skin Cancer (BCC, cSCC)
Testicular Cancer

Hematologic Cancers

Acute Lymphoblastic Leukemia (ALL)
Acute Myeloid Leukemia (AML)
Chronic Lymphocytic Leukemia (CLL)
Chronic Myeloid Leukemia (CML)
Diffuse Large B-Cell Lymphoma (DLBCL)
Follicular Lymphoma
Mantle Cell Lymphoma (MCL)
Multiple Myeloma
Myelodysplastic Syndromes
Myelofibrosis
Non-Hodgkins - other
Polycythemia Vera
Small Lymphocytic Lymphoma (SLL)

If you are interested in a condition not listed, reach out to us for a quote. We are always open to new challenges, creating opportunities for fresh connections and advancements in healthcare research.

Chronic, Rare, Progressive and Genetic Conditions

The logo for PILAR Patient Advocates is a circular emblem. At the top, the word "PILAR" is written in a large, serif font, with a stylized leaf or flame-like shape rising from the letter 'A'. Below this, the words "ESTB" and "2015" are positioned on either side of a central graphic that resembles a caduceus or a similar medical symbol. At the bottom of the circle, the words "PATIENT ADVOCATES" are written in a smaller, sans-serif font.

22Q Deletion Syndrome	Major Depressive Disorder
Acromegaly	Menopause & Hot Flashes
Age-Related Macular Degeneration	Metabolic Dysfunction-Associated Liver Disease (MASLD)
Alpecia	Metabolic dysfunction-associated steatohepatitis (MAASH)
Alzheimer's Disease	Migraines
Amyotrophic Lateral Sclerosis (ALS)	Mild Cognitive Impairment
Ankylosing Spondylitis	Multifocal Motor Neuropathy
Asthma	Multiple Sclerosis
Autism Spectrum Disorder	Muscular Dystrophy
Bipolar Disorder	Myasthenia Gravis
Bullous Pemphigoid	Narcolepsy
CDKL5 Deficiency Disorder (CDD)	Nasal Polyps
Chronic Kidney Disease	Neurofibromatosis Type 1 Peripheral Neuropathy (NF1PN)
Chronic Obstructive Pulmonary Disease (COPD)	Niemann-Pick Disease
Complement 3 Glomerulopathy (C3G)	Non-Radiographic Axial Spondyloarthritis (nr-axSpA)
Crohn's Disease	Obesity & Weight Loss
Cushing's Syndrome	Opioid Use Disorder
Cystic Fibrosis	Osteogenesis Imperfecta (Brittle Bone Disease)
Deaf & Hard of Hearing	Osteomyelitis
Dementia	Pacemaker Users
Diabetes	Painkiller Users
Dravet Syndrome	Parkinson's Disease
Dry Eye	Paroxysmal nocturnal hemoglobinuria (PNH)
Eosinophilic Esophagitis (EoE)	Peripheral Neuropathy (PN)
Eosinophilic Granulomatosis with Polyangiitis (EGPA)	Phenylketonuria (PKU)
Epilepsy	Post-Traumatic Stress Disorder (PTSD)
Erosive Esophagitis	Postpartum Depression
Essential Tremor	Prader-Willi Syndrome
Exocrine Pancreatic Insufficiency (EPI)	Primary Biliary Cholangitis (PBC)
Fabry Disease	Pneumonia
Feeding Tube Patients	Poorly Arthritis
Fragile X Syndrome	Pulmonary Fibrosis
Friedrich Ataxia	Renal Disease
Geographic Atrophy	Retinitis Pigmentosa
Giant Cell Arteritis (GCA)	Rett Syndrome
Glanzmann's Thrombasthenia	Rheumatoid Arthritis
Growth Hormone Disease	Schizophrenia
Heart Conditions (Pediatric and Adult)	Scleroderma
Hemolytic Disease of the Fetus and Newborn (HDFN)	Seizures
Hepatic Encephalopathy	Short Bowel Syndrome
Hereditary Angiodema (HAE)	Sickle Cell Disease
HIV & At-Risk Patients	Sjogren's Disease
Huntington's Disease	Spinal Muscular Atrophy
Hypoparathyroidism	Tardive Dyskinesia
Idiopathic Hypersplenism	Tenosynovial Giant Cell Tumor (TGCT)
Idiopathic Normal Pressure Hydrocephalus (INPH)	Thalassemia
Idiopathic Short Stature	Toxothrycin Amyloidosis (ATTR)
Immunoglobulin-A Nephropathy (IgAN)	Tuberous Sclerosis Complex (TSC)
Indolent Systemic Mastocytosis (ISM)	Turner's Syndrome
Infertility	Ulcerative Colitis
Interstitial Lung Diseases	Urea Cycle Disorder
Kidney Transplant Patients	Villigo
Lance-Cornut Syndrome	Warm Autoimmune Hemolytic Anemia (wAIHA)
Muscular Dystrophy	X-Linked Hypophosphatemia (XLH)
Lupus	
Lyme Disease
